

SOP-06

Escalation Matrix

Department: NOC Operations Escalation Management | Safaricom Ethiopia PLC | Version 2.1 | 2026

1. Purpose & Scope

Defines the tiered escalation pathway from L1 NOC Operator through L3 Vendor support and executive management notification for all priority incidents.

2. L1 NOC Operator (First Response)

- Detects alarm, creates ticket, attempts initial restoration within MTCW.
- Responsibility: Alarm triage, initial isolation, subscriber impact assessment.
- Escalation Trigger: Severity P1/P2 or MTCW exceeded for P3/P4.

3. L2 Domain Engineers (Technical Escalation)

- RAN L2: Tewodros Mulugeta +251 915 123 456
- Transmission L2: Dawit Tesfaye +251 910 567 890
- PS Core L2: Amina Omar +251 922 890 123
- CS Core L2: Yonas Alemu +251 930 012 345
- Power L2: Kebede Assefa +251 912 345 678
- Escalation Trigger: P1 unresolved >60 min, P2 unresolved >90 min.

4. L3 Vendor Support (Expert Escalation)

- Engage OEM TAC (Technical Assistance Center) via NOC bridge call.
- Provide: case ID, impact scope, logs, configuration snapshots.
- Escalation Trigger: L2 unable to resolve within agreed MTTR window.

5. Management Notification Thresholds

- P1 declared: Notify NOC Manager within 15 minutes.
- P1 unresolved >2 hours: Notify Head of Network Operations.
- P1 unresolved >4 hours: Notify VP Technology and CEO office.
- Any incident with subscriber impact >50,000: Immediate MD notification.

6. Escalation Communication Channels

- Primary: Dedicated NOC bridge conference line.
- Secondary: WhatsApp NOC Incident Group (L1 + L2 + Management).
- Formal: Email with incident report to noc@safaricom.et.
- War Room: Physical NOC Operations Room for P1 requiring on-site war room.
