

SOP-03

Site Access Procedure

Department: Field Operations & Security | Safaricom Ethiopia PLC | Version 2.1 | 2026

1. Purpose & Scope

Defines authorization and tracking requirements for all physical access to Safaricom Ethiopia network sites by internal staff, contractors, and third-party vendors.

2. Access Categories

- â€ Internal Staff: Requires valid employee ID and site access badge.
- â€ Contractors: Require approved work order and signed NDA on file.
- â€ Vendors/OEM: Require pre-approved vendor access form and escort by NOC engineer.

3. Pre-Access Authorization

- â€ Submit site access request via NOC portal minimum 24 hours in advance.
- â€ NOC supervisor approves request and issues time-bound access code.
- â€ Security team notified with expected arrival window and personnel list.

4. On-Site Check-In

- â€ Register at site security checkpoint with photo ID and access code.
- â€ Log entry time, purpose, equipment carried, and contact number.
- â€ Collect site key from NOC duty engineer for secured equipment rooms.

5. During Site Visit

- â€ Notify NOC L1 operator immediately upon arrival at equipment area.
- â€ All equipment changes must be coordinated with NOC in real-time.
- â€ No unauthorized power cycling of active network equipment permitted.
- â€ Maintain communication with NOC via mobile phone throughout visit.

6. Site Departure

- â€ Log departure time in the site access register.
- â€ Return all keys and access cards to designated NOC contact.
- â€ Notify NOC L1 operator upon safe departure from site.
- â€ Submit site visit report within 4 hours if any issues encountered.
